# Social Inbox | FAQs

Written by Team Blaze

Updated over 8 months ago

## 1. What is social Inbox?

If you are familiar with search on the web, which indexes pages on the internet to organize and rank information, then using Social Search to find leads should look familiar. Social Search searches across social activity on Twitter and LinkedIn to find new users based on their activity.

## 2. What social media platforms are supported for this feature?

As of now, X, linkedIn, Wallet messaging is supported.

## 3. What are the functions that I can explore through social inbox?

It is like any other social media inbox where you can send and recieve messages. You can filter messages based on Read, Unread, Replied, To follow up, Starred and Archived.
