Updated over 8 months ago

Table of contents

Easily upload LinkedIn and X (Twitter) segments by adding social handles.

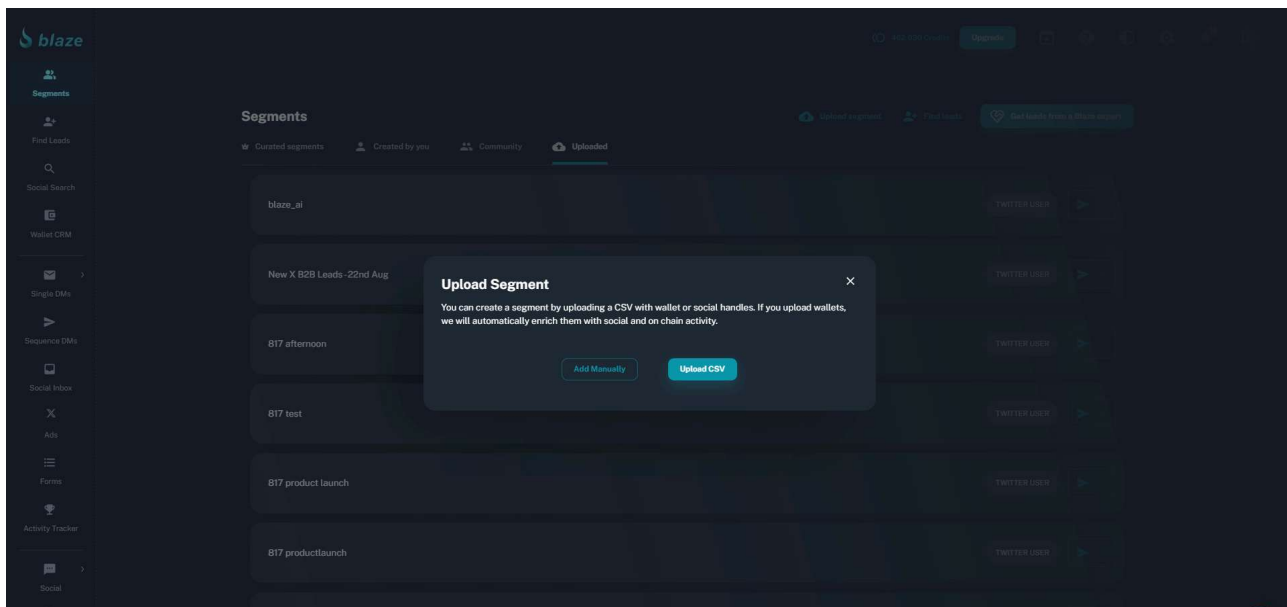

Here's a step-by-step guide on how to upload a segment in Blaze:

1. Access Segments

Navigate to the **Segments** section and click on **"Uploaded"** at the top of the table.

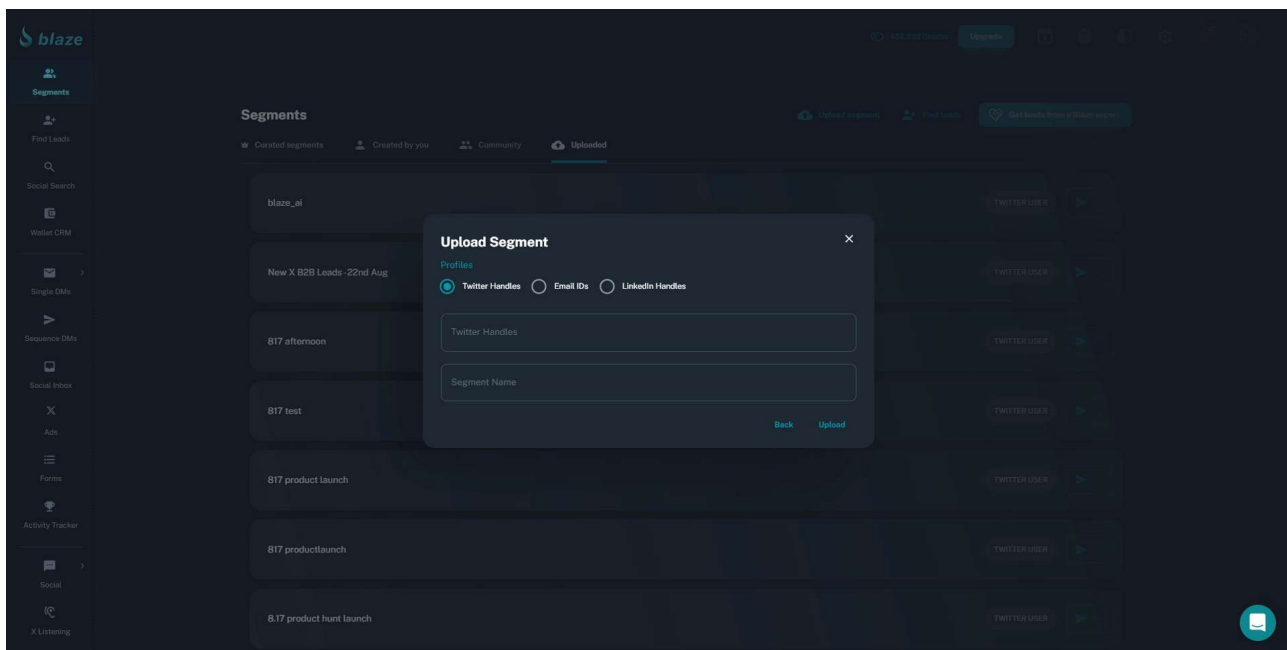

2. Upload Segment

Click on the **"Upload Segments"** button located at the top-right corner.

You can upload segments by

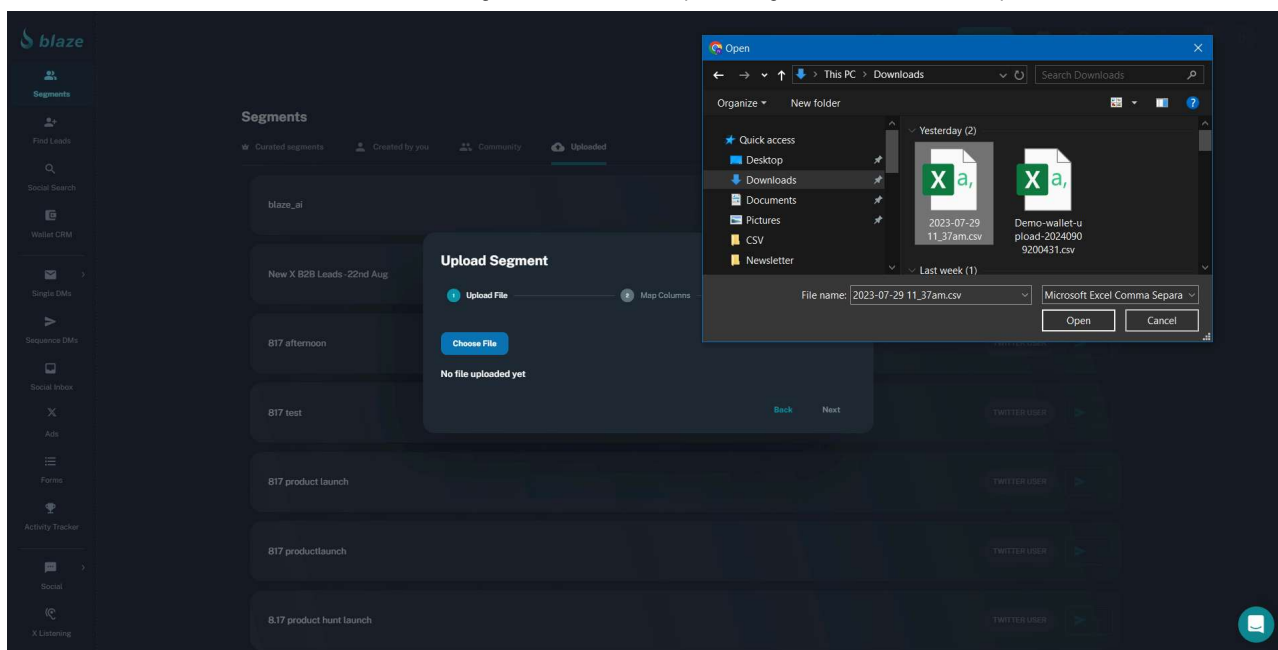

- either manually copy-pasting the twitter handles/ linkedIn handles

- Or by uploading a csv file. The steps are as follows:

3. Upload CSV

Click on the **"Upload CSV"** button to upload your CSV file containing segment data.

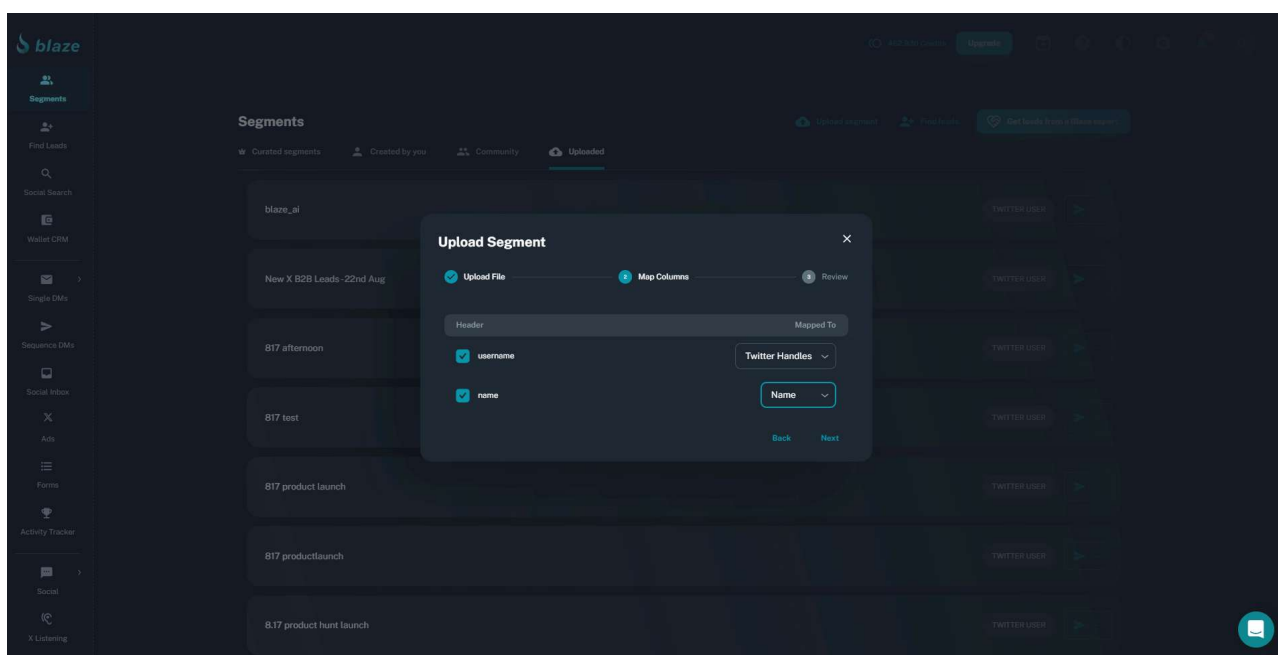

If you want to upload wallets then they should use [Wallet CRM](#) feature.

Click on **Next**.

4. Map Columns to Pre-Existing Headers

After uploading the CSV, you'll need to map your columns to the relevant headers.

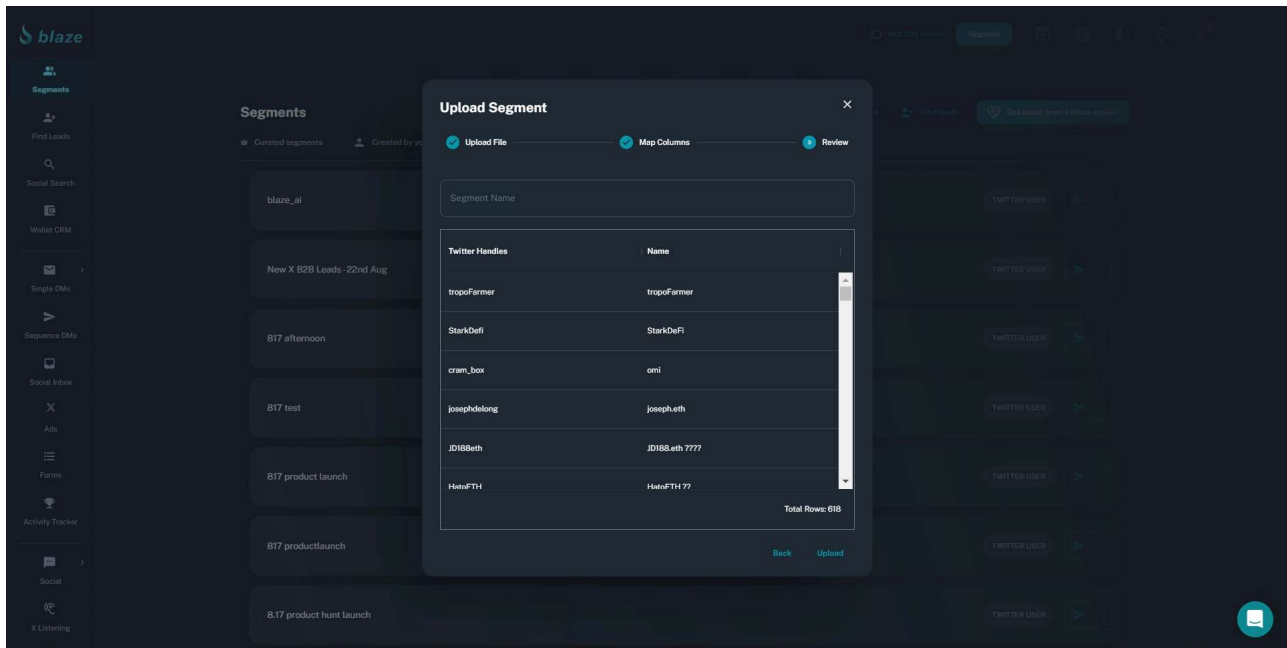

The essential column mappings include:

- **Twitter Handles:** Specifies the Twitter handle for the leads.

- **Email IDs:** Specifies the email addresses for the leads.
- **Name:** Specifies the name of the segment uploaded.

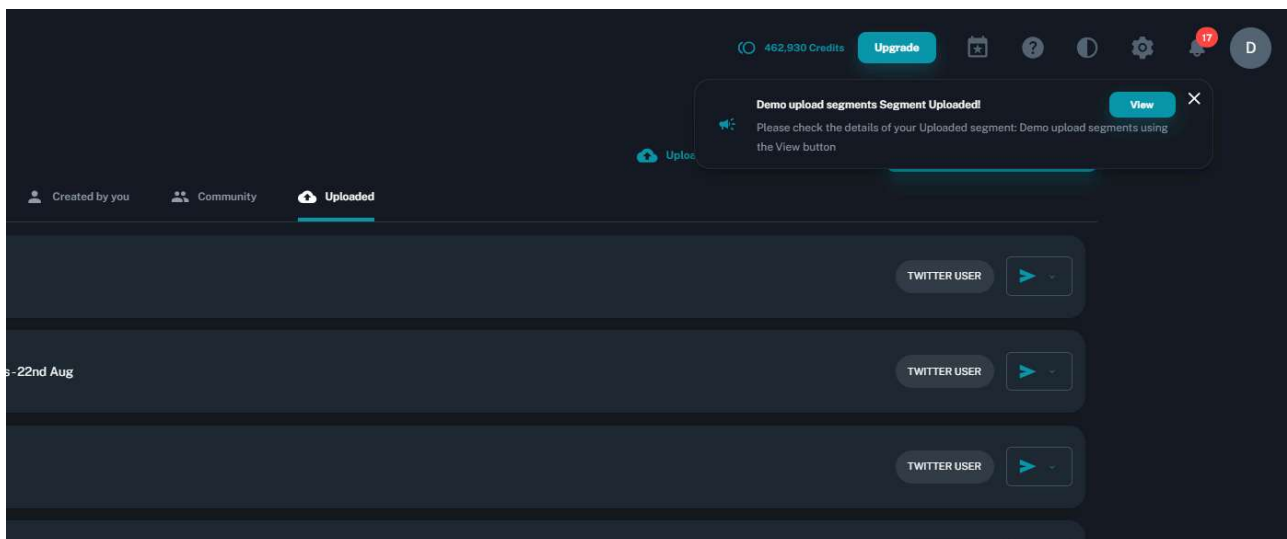

Review your uploaded segment and click on **Next**.

5. Complete the Upload

Once the mappings are set, click **Upload** to finalize the process. Your segment will now be uploaded and listed under the **Uploaded** tab of "Segments."

You will get a notification once your segments are ready.

This method allows you to upload and manage segmented lists quickly and efficiently for various campaigns or follow-ups.
