 You can't fetch the followers and following of twitter accounts which are private.

Time to Fetch Account Follower/Following

For a public (non-private) Twitter account, Blaze takes approximately **20 minutes to fetch 10,000 followers or following**.

[Credit Pricing for Twitter Follower/Following Fetch](#)

- **0.05 credits per follower or following fetch**

- That means: **1 credit = 100 follower/following fetches**

So, if you're fetching data for 5,000 followers of a Twitter account, it would cost **50 credits**.
