

[PRODUCT GUIDES](#) > [LEAD GEN AND SEGMENTS](#) > [SEGMENT TYPES](#)

Saved segments

Contains all the segments created/uploaded on Blaze

These segments include everything you've **uploaded, purchased, or created** — whether from the **Segment Creation** tab, by clicking the **Create Segment** button within an existing segment, or using **WalletCRM** or **Social Search**. When you purchase a curated segment, it's automatically saved here under "**Saved Segments**", allowing you to run campaigns and enrich leads with ease.

Over view of Saved Segment

- **Twitter & LinkedIn:**
 - **Segment Creation Tab:** Create and save segments using the Segment Creation tab. Once created, they're stored under 'Saved Segments' in the Segments tab.
 - **Existing Segments:** Create segments using filters on existing segments like Uploaded, Curated, Pre-Built, and Saved segments.
- **Telegram:**
 - Similar to Twitter and LinkedIn, Telegram segments can be created and managed using the Segment Creation tab and from existing segments with various filters.

- **Discord:**

- Discord segments are primarily created from Pre-Built segments.
