To access and download your invoices on Blaze, follow these simple steps:

1. Navigate to the **Settings** section in your Blaze account.
2. Within Settings, select the **Billings** tab.
3. Find the invoice you want to review and click the **Download** button.

Your invoices will be available for easy access anytime you need them!

The screenshot shows the 'Billing' tab selected in the top navigation bar. Below the navigation bar, there is a section titled 'Cancel or Downgrade' with a link to 'support@withblaze.app' and an 'Email Us' button. Below this is the 'Billing History' section, which displays a table of previous payments.

Invoice#	Amount	Date	Action
